Fun and Families has been successfully delivering group work programmes across the City and the County of Leicestershire for nearly 20 years. Our training is ideal for any practitioners wanting to develop group work skills and have the opportunity to deliver our inspirational 'GROUNDED' programme.

Aims

The Grounded 7 week programme is developed to encourage young people to discuss and explore positive ways to manage conflict.

It also provides an interactive environment that empowers young people to learn how they can improve and build more positive relationships at home and/or school.
